ISG Integrated Solutions Group

Steve is an entrepreneur and iconoclast with a background in cybersecurity startups, enterprise IT, and advisory services at eminent companies in telecommunications, financial services, high-tech, Big Four, and boutique consulting firms. Steve has over twenty years of experience helping organizations build global IT security and IAM solutions that create business value through secure cloud transformation enablement. Steve will be Practice Leader for ISG's Cyber Security Services, helping ISG clients with strategy, operations, and transformation in cybersecurity, data privacy, identity management, governance, and general program management. Steve earned his bachelor's degree in IT from the University of Phoenix, is an MBA Candidate '24 at Santa Clara University, and is a well-known speaker and thought leader in the industry on identity and access management and identity threat intelligence.
